Product Description

EcoSmart is a high-quality rubber grass mat for playgrounds and recreational areas from PlaySmart, the market leader in safety surfacing. Made from recycled rubber, our mats provide a softer landing than safety tiles with a harsh plastic finish. EcoSmart is available with a 10-year product and a 5-year installation guarantee, as well as trademarked installation specification. By choosing EcoSmart, you'll be choosing an environmentally friendly surfacing solution that is safe, durable and cost-effective.
